

First Quarter 2018 Highlights

May 14, 2018

Forward Looking Statements

This presentation contains statements about future results, plans and events that may constitute "forward-looking" statements within the meaning of the U.S. federal securities laws. The Company cautions you that the forward-looking information included in this presentation is not a guarantee of future events, and that actual events may differ materially from those made in or suggested by the forward-looking information contained in this presentation. In addition, forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "plan," "seek," "comfortable with," "will," "expect," "intend," "estimate," "anticipate," "believe" or "continue" or the negative thereof or variations thereon or similar terminology. Forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond the Company's control. These risks and uncertainties include, but are not limited to, the factors described in the Company's historical filings with the NYDFS, and in the Company's, Syncora Guarantee Inc.'s GAAP and statutory financial statements, as applicable, posted on its website at www.syncora.com. Readers are cautioned not to place undue reliance on forward-looking statements which speak only as of the date they are made. The Company does not undertake to update forward-looking statements to reflect the impact of circumstances or events that arise after the date the forward-looking statements are made.

Non-GAAP Financial Measures

This presentation references Non-GAAP operating income (loss) and adjusted book value (“Adjusted Book Value”), financial measures that are not calculated in accordance with GAAP. A Non-GAAP financial measure is a numerical measure of financial performance or financial position that excludes (or includes) amounts that are included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP. While the Company does not manage its business or measure its performance using Non-GAAP measures, we are presenting these Non-GAAP financial measures because they provide greater transparency and enhanced visibility into the underlying performance of our business and, with respect to Adjusted Book Value, the effect of certain items that the Company believes will reverse from GAAP book value over time. In addition, we have included these measures because we believe they provide investors with important additional information to compare the Company to other financial guarantors. Non-GAAP operating income (loss) and Adjusted Book Value as calculated do not consider timing or amounts, if any, of payment on SGI’s surplus notes which would require NYDFS approval, dividend restrictions under New York Insurance Law applicable to the Company’s insurance subsidiary and contractual constraints with respect to any dividend payment. Reference should be made to Note 18 in the most recently issued consolidated GAAP financial statements. In addition, because other financial guarantors may calculate Non-GAAP operating income (loss) and Adjusted Book Value or similarly titled measures differently, or may not be subject to the restrictions noted above, Non-GAAP operating income (loss) and Adjusted Book Value may not necessarily be comparable to similarly titled measures reported by other financial guarantors. Non-GAAP operating income (loss) and Adjusted Book Value are not substitutes for the most directly comparable GAAP measures, should not be viewed in isolation and may be subject to change.

Key Highlights

Three Months Ended March 31, 2018 and 2017 - Financial Results:

- Net loss attributable to controlling interest of \$(8.8) million as compared to \$(30.8) million.
- Basic and diluted loss per common share of \$(0.10) as compared to \$(0.36).
- Non-GAAP operating income (loss) of \$16.7 million as compared to \$(21.9) million.
- Non-GAAP basic and diluted operating income (loss) per common share of \$0.19 as compared to \$(0.25).
- Adjusted Book Value of \$620.7 million as compared to \$609.3 million as of December 31, 2017.
- Adjusted Book Value per common share of \$7.14 as compared to \$7.02 as of December 31, 2017.

Insured Portfolio:

- Net par exposure decreased by \$0.3 billion to \$14.5 billion as of March 31, 2018 as compared to \$14.8 billion as of December 31, 2017.
- Total premium accelerations of \$9.6 million for the three months ended March 31, 2018 as compared to \$8.1 million for the three months ended March 31, 2017.
- Consolidated Below Investment Grade (BIG) net par exposure of \$1.1 billion as of March 31, 2018 as compared to \$1.2 billion as of December 31, 2017.
- GAAP BIG Flag List Leverage Ratio decreased 0.12 from 0.71 as of December 31, 2017 to 0.59 as of March 31, 2018.

Recent Developments and Subsequent Events:

- On January 16, 2018, Syncora received cash payments of \$335.0 million in connection with the Greenpoint litigation settlement.
- On February 7, 2018, Syncora's wholly owned subsidiary Pike Pointe LLC completed the sale of a real estate development option.
- On May 7, 2018, Syncora announced the sale of American Roads LLC.
- On May 14, 2018, Syncora received approval of its proposed reinsurance transaction with Assured Guaranty Corp., expected to close June 1, 2018, and the related payment of \$400.0 million to third-party holders of surplus notes, with an expected payment date of June 27, 2018.

Financial Results

Syncora Holdings Ltd. Summary of Consolidated Financial Results Three Months Ended March 31, 2018 and 2017 (U.S. dollars in millions, except per share amounts)			
	<u>2018</u>	<u>2017</u>	
Net premiums earned	\$ 14.3	\$ 15.6	
Net investment income	10.4	11.6	
Net unrealized and realized gains (losses) on investments	1.0	(14.9)	
Net earnings (loss) on insurance cash flow certificates	34.3	(6.3)

Basic and diluted (loss) earnings per common share	\$ (0.10)	\$ (0.36)	\$ 1.54	\$ 2.18	\$ 5.33
Non-GAAP basic and diluted operating income (loss) per common share	\$ 0.19	\$ (0.25)	\$ 1.71	\$ 2.22	\$ 1.91

Non-GAAP Operating Income (Loss) Adjustments

- (1) Elimination of non-credit impairment net realized and unrealized fair value (gains) and losses on credit derivatives in excess of the present value of the expected estimated economic credit losses, and non-economic payments. The fair value adjustments on derivative financial instruments are heavily influenced by, and fluctuate, in part according to, market interest rates, credit spreads and other factors that management cannot control or predict and that are not expected to result in an economic gain or loss. In addition, this adjustment presents all financial guaranty contracts on a more consistent basis of accounting, whether or not they are subject to derivative accounting rules.
- (2) Elimination of surplus note accretion as the full face amount of the surplus notes (including interest paid-in-kind) is included in the Adjusted Book Value calculation.
- (3) Elimination of realized gains (losses) on the Company's investments, except for gains and losses on investments for which the fair value option of accounting was elected and changes in net unrealized gains (losses) on equity securities. The timing of realized gains and losses, which depends largely on market credit cycles, can vary considerably across periods. The timing of sales is largely subject to the Company's discretion and influenced by market opportunities, as well as the Company's tax and capital profile.
- (4) Elimination of expenses associated with the surplus note exchange offer and proxy solicitation for the variation of rights to the SHL Preferred Shares, which were part of Syncora Holdings US Inc.'s ("SHI") restructuring transactions completed on August 12, 2016. The elimination of such non-recurring, infrequent or unusual items presents expenses on a more consistent basis of accounting.
- (5) Elimination of the results from discontinued operations related to American Roads LLC.
- (6) Elimination of the tax effects related to the above adjustments. SHI has a significant tax NOL that is offset by a full valuation allowance in the GAAP consolidated financial statements. As a result, for purposes of Non-GAAP measures, the Company utilizes a 0% effective tax rate until the expiration of these NOLs.

Adjusted Book Value per Common Share

Financial Results

Syncora Holdings Ltd.
Reconciliation of GAAP Common Shareholders' Equity to
Adjusted Book Value
March 31, 2018 and December 31, 2017, 2016 and 2015
(in millions, except per share amounts)

	As of March 31,	As of December 31,		
	2018	2017	2016	2015
GAAP common shareholders' equity	\$ 664.7	\$ 686.0	\$ 524.7	\$ 335.5
Series A preferred stock ⁽¹⁾	-	-	-	(2.3)
Series B preferred stock ⁽¹⁾	(121.0)	(121.0)	(121.0)	(121.0)
Adjusted GAAP common shareholders' equity	\$ 543.7	\$ 565.0	\$ 403.7	\$ 212.2
Pre-tax adjustments:				
Deferred acquisition costs ⁽²⁾	(32.6)	(34.9)	(42.6)	(54.2)
Net credit derivative liability ⁽³⁾	107.2	84.2	122.3	53.4
Net present value of estimated net future credit derivative revenue ⁽⁴⁾	63.5	65.8	65.9	80.9
Net unearned premium reserve on financial guaranty contracts in excess of expected loss to be expensed ⁽⁵⁾	190.7	208.9	272.1	317.7
Notes payable ⁽⁶⁾	(235.8)	(248.2)	(288.8)	(352.9)
Unrealized gains on investments ⁽⁷⁾	(10.1)	(24.4)	(21.5)	(15.8)
Income Taxes ⁽⁸⁾	(5.9)	(7.1)	(27.0)	(27.9)
Adjusted Book Value	\$ 620.7	\$ 609.3	\$ 484.1	\$ 213.4
Common shares outstanding at end of the period	87.0	86.8	86.6	56.3
Book value per common share	\$ 6.25	\$ 6.51	\$ 4.66	\$ 3.77
Adjusted book value per common share	\$ 7.14	\$ 7.02	\$ 5.59	\$ 3.79

Note: GAAP common shareholders' equity and Adjusted Book Value includes \$182.0 million and \$182.0 million, \$175.1 million and \$175.1 million, \$161.9 million and \$161.9 million, and \$182.1 million and \$182.0 million as of March 31, 2018, December 31, 2017, 2016, and 2015, respectively, related to American Roads LLC.

Adjusted Book Value Adjustments

- (1) Addition of the excess of the outstanding liquidation preference of the SHL Series A perpetual non-cumulative preferred shares and the SGI Series B non-cumulative preferred shares over their carrying values. Including the SHL Series A perpetual non-cumulative preferred shares and the SGI Series B non-cumulative preferred shares at their outstanding liquidation value (which, for the SGI Series B, is net of the shares received in connection with our 2012 settlement with Countrywide, Bank of America Corp.) instead of their carrying value is more in line with the residual value to common shareholders.
- (2) Elimination of pre-tax deferred acquisition costs as these amounts represent net deferred expenses that have already been paid and will be expensed in future accounting periods.
- (3) Elimination of the consolidated net credit derivative liability which represents an estimate of the fair value of the Company's guarantees issued as CDS contracts in excess of the present value of the expected losses. By excluding the net credit derivative liability, this metric eliminates the benefit to our shareholders' equity embedded therein from the Company's non-performance risk, which reflects the market's view of the risk that the Company will not be able to financially honor its obligations as they become due. The fair value adjustments on derivative financial instruments are heavily influenced by, and fluctuate, in part according to, market interest rates, credit spreads and other factors that management cannot control or predict and that are not expected to result in an economic gain or loss. In addition, by including our best estimate of losses we expect to incur on our CDS contracts if we were to hold such CDS contracts to maturity and pay claims as they arise over the remaining life of such contracts, the metric presents our guarantees of insurance and derivatives on a consistent basis, which results in a more meaningful measure of our value.
- (4) Addition of the pre-tax net present value of estimated net future credit derivative revenue. Including the net present value of estimated net future credit derivative revenue enables an evaluation of the value of future estimated credit derivative revenue for which there is no corresponding GAAP financial measure.
- (5) Addition of the pre-tax value of the unearned premium reserve on financial guaranty contracts in excess of expected losses to be expensed on an individual policy level, net of reinsurance as the unearned premium reserve on financial guaranty contracts represents revenues that are expected to be earned in the future.
- (6) Addition to the full face amount, in excess of the carrying amount, of the surplus notes payable held by third parties (including interest paid-in-kind), as including the full face amount of the surplus notes is consistent with the treatment of these instruments as debt.
- (7) Elimination of the pre-tax unrealized gains on the Company's investments that are recorded as a component of accumulated other comprehensive income ("AOCI"), excluding the effects of foreign exchange. The effects of the AOCI component of the fair value adjustment on investments are not deemed economic until the Company sells such investments.
- (8) Elimination of the tax effects related to the above adjustments. SHI has a significant tax NOL that is offset by a full valuation allowance in the GAAP consolidated financial statements. As a result, for purposes of Non-GAAP measures, the Company utilizes a 0% effective tax rate until the expiration of these NOLs.

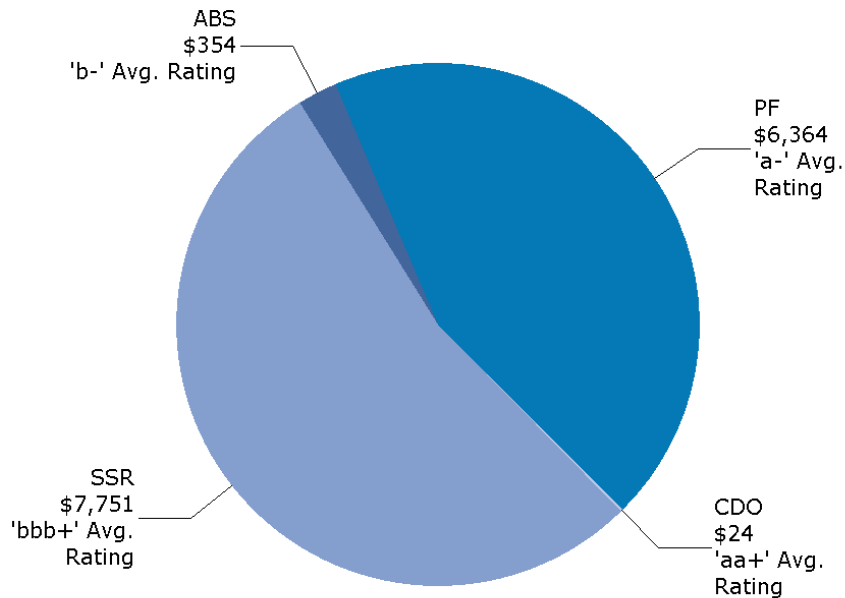

Insured Portfolio Overview: SHL

SHL's **March 31, 2018** portfolio consists of 452 credits totaling \$14.5BN in net par exposure. Average internal rating⁽¹⁾ of the SHL portfolio is 'bbb+'. 8% or \$1.1BN⁽²⁾ of SHL's portfolio is internally rated Below Investment Grade (BIG).

SHL's **December 31, 2017** portfolio consists of 495 credits totaling \$14.8BN in net par exposure. Average internal rating⁽¹⁾ of the SHL portfolio is 'bbb+'. 8% or \$1.2BN⁽²⁾ of SHL's portfolio is internally rated Below Investment Grade (BIG).

SHL Net Par Outstanding by Sector

as of March 31, 2018 (in \$MM)

SHL Net Par Outstanding by Sector

as of December 31, 2017 (in \$MM)

⁽¹⁾ All average ratings reflect Syncora's internal ratings.

Refer to March 31, 2018 Total Exposure >=\$40 million in Appendix A for discussion of Internal Ratings.

⁽²⁾ Including credits written in CDS form.

Major Changes:

(2016 – 2017): Refinancing of large structured single risk credit

⁽¹⁾ BIG net par outstanding/Total claims paying resources

SHL Portfolio Expected Net Par & Credit Count Reduction by Business Area as of March 31, 2018

(1) Syncora's GAAP Flag List consists of all BIG credits plus credits on Syncora's Special Monitoring List (not including those credits in CDS form which are carried at fair value). The Special Monitoring List is defined as those credits that are viewed as low investment grade where a material covenant or trigger may be breached and increased surveillance is warranted.

Note: The above tables do not reflect potential remediation and refundings.

SHL Projected Gross Claims on Loss List Credits: FY2018-2059

- SHL faces a potential liquidity mismatch between expected future claims payments and recoveries relating to these claims.
 - As of March 31, 2018, SHL (through its insurance subsidiary) anticipates that it will be requested to make gross claim payments in the period 2018 – 2029 of approximately \$317.7 million based on expected loss exposures without regard to potential adverse development on loss and other portfolio exposures – see disclosures on following page.

⁽¹⁾ Represents estimated undiscounted cash outflows under direct and assumed financial guaranty contracts, excluding remediated claims and after ceded reinsurance.

SGI Significant Refinancing Risk Credits' NPO

- SGI also remains exposed to transactions with refinancing risk through 2019 including a number of credits with exposure to refinancing risk and the risk of material principal repayments with an aggregate par outstanding of \$2.9 billion.
- See the description of significant risks and uncertainties in Note 2 of SHL's recently issued consolidated GAAP financial statements for further discussion.

⁽¹⁾ Amounts for 2016 were restated to include SCAI as a result of the merger of SCAI into SGI.

⁽²⁾ Purchased bonds shown at GAAP carrying value for the insured bonds. Salvage is for claims paid to date.

Status of Affirmative Litigation⁽¹⁾

Litigation Case	Current Status (as of May 7, 2018)
<p>Syncora Guarantee Inc. v Alinda Capital Partners LLC, American Roads LLC, Macquarie Securities (USA) Inc., and John S. Laxmi – New York State Supreme Court, Index No. 651258/2012</p>	<ul style="list-style-type: none"> • On April 18, 2012, Syncora Guarantee initiated an action in the Supreme Court of the State of New York against Macquarie Capital (USA) Inc. (“Macquarie”), among others. The case remains pending only against Macquarie, with Syncora Guarantee having entered into a stipulation dismissing the other defendants from the lawsuit. Syncora Guarantee alleges that Macquarie made misrepresentations and omissions in obtaining insurance in connection with a bond offering by American Roads LLC. Macquarie’s initial motion to dismiss the claims was denied in its entirety and decided in Syncora Guarantee’s favor. • On September 28, 2015, Syncora Guarantee filed a motion to amend its complaint to include additional allegations against Macquarie. • In May 2016, Macquarie filed a motion to dismiss Syncora Guarantee’s amended complaint and, in the alternative, to narrow Syncora Guarantee’s claims and damages. • On February 15, 2017, the court ruled on Macquarie’s motion to dismiss. The court sustained Syncora Guarantee’s fraud and negligent misrepresentation claims for compensatory damages but dismissed Syncora Guarantee’s claims for “rescissory” damages and punitive damages. The court also rejected Macquarie’s request to strike the amended complaint’s reference to Section 3105. • Pretrial discovery has concluded. • On January 17, 2018, Macquarie filed its opening brief in support of its appeal from the trial court’s ruling that upheld Syncora Guarantee’s claims for compensatory damages. The appeal is fully briefed, and is expected to be heard in the next two months. • Macquarie has also moved for summary judgment before the trial court; that motion will be heard on June 4, 2018. • Trial was scheduled to begin on July 11, 2018, but, on Macquarie’s motion, the trial court adjourned the trial date. Syncora Guarantee has opposed the adjournment and anticipates that the issue of the trial date will be heard further at the June 4, 2018 summary judgment argument.

⁽¹⁾ This litigation is Syncora’s affirmative litigation. From time to time, Syncora may also be a defendant in certain litigations. Information disclosed herein is accurate as of the date indicated. The information included in this slide may change from time to time without notice, and Syncora Holdings Ltd. is under no duty or obligation to update this information.

(1) A credit is a unique combination of obligor, legal security and seniority level that defines the repayment risk that Syncora faces. A credit may have only one credit rating.

(2) Internal ratings are provided solely to indicate the underlying credit quality of guaranteed obligations based on the Company's view, before giving effect to the guarantee. The Company's rating symbology has a one-to-one correspondence to the ratings symbologies used by S&P and Moody's (e.g., aa3 = AA- = Aa3, bbb2 = BBB = Baa2, etc.) except in the cases of loss reserve credits. For these credits, the Company assigns "d" ratings to insured transactions where the transaction has resulted in a paid claim and a loss reserve has been established. "c" ratings are assigned for insured transactions where a future claim is expected but recovery is in doubt and a loss reserve has been established.
